### Topic: 1

#### Employee History Data and Background Element

### Question: 1

A customer does NOT want the basis to be prorated.  
In the employee history data file, what dates must the customer enter?

- A. Dates equal to the program dates
- B. Dates earlier than program dates
- C. Dates later than program dates
- D. Dates should NOT be entered

**Answer: A**

#### Employee History Data and Background Element

### Question: 2

Refer to the screenshot below. When implementing an Employee Central-integrated Variable Pay template, to which of the following does the highlighted Effective Date refer?

The screenshot shows the 'Employee Central Settings' interface. At the top, there is a navigation bar with tabs: 'Plan Setup', 'Manage Worksheets', and 'Complete Compensation Cycle'. Below this is a sub-navigation bar with links: 'Settings', 'Design Worksheet', 'Manage Plan Details', 'Manage Users', 'Forecast Bonus', 'Calculate Bonus', 'Reports', and 'Bonus Assignment Statement'. The main content area is titled 'Employee Central Settings'. Under the 'Worksheet Settings' section, there are two fields: 'Effective Date' and 'Hybrid Template'. The 'Effective Date' field is highlighted with a red box and contains the date '12/31/2018'. The 'Hybrid Template' field is a checkbox that is currently unchecked.

- A. The date published transactions are effective in Employee Central
- B. The date the program ends

- C. The date the program begins
- D. The date the system uses to pull data from Employee Central

**Answer: D**

#### **Employee History Data and Background Element**

### **Question: 3**

The customer keeps getting an error message when calculating the basis.

The custom formula is: "tgtPct salary"

Looking at the background element (see screen shot), what adjustment must be made?

```
<label>Job Grade</label>
</data-field>

<data-field id="jobLocation" field-name="vfld3" max-length="4000">
  <label>Job Location</label>
</data-field>

<data-field id="businessUnit" field-name="vfld4" max-length="4000">
  <label>Business Unit</label>
</data-field>

<data-field id="division" field-name="vfld6" max-length="4000">
  <label>Division</label>
</data-field>

<data-field id="salary" field-name="vfld7" max-length="4000">
  <label>Salary</label>
</data-field>

<data-field id="tgtPct" field-name="vfld8" max-length="4000">
  <label>Target Percent</label>
</data-field>

<data-field id="salary" field-name="vfld7" max-length="4000">
  <label>Salary</label>
</data-field>

<data-field id="tgtPct" field-name="vfld8" max-length="4000">
  <label>Target Percent</label>
</data-field>

<data-field id="basis" field-name="ffld1" max-length="999">
  <label>Target Amount</label>
</data-field>
</background-element>
```

- A. The basis field must be hidden in the background element.
- B. The basis field must be deleted from the background element.
- C. The tgtPct and salary fields must both be float fields.
- D. The tgtPct and salary fields must both be numeric fields.

**Answer: D**

#### Employee History Data and Background Element
